

College and Beyond

 **CATHERINE CORTEZ MASTO**
United States Senator for **Nevada**

cortezmasto.senate.gov

A MESSAGE FROM THE SENATOR

My fellow Nevadan,

Pursuing higher education, through a college degree or vocational education, can open the door to many professional opportunities and increase your earning potential. Access to a quality education opened doors for my sister and me to be the first in our family to graduate from college. Following that, I went on to law school and became U.S. Attorney, served as Attorney General of the Great State of Nevada, and now, I'm honored to serve as your United States Senator.

As education has become more and more important for success in America, rising costs have put access to quality education out of reach for an increasing number of Nevadans. For this reason, making education more affordable and accessible for Nevadans is one of my top priorities in Congress.

With planning, dedication, hard work, and support, anyone can pursue education and training opportunities beyond high school. And we know that ongoing education is critical to keeping pace with workforce demands, no matter what field you choose to pursue. This College and Beyond guide is meant to serve as a resource for students, parents, teachers, guidance counselors, and administrators to use when planning for college or other postsecondary options. Included in this guide are:

- Checklists of important tasks for middle and high school students
- High school graduation requirements
- Information about Nevada's colleges and universities
- Vocational training opportunities
- Resources for finding grants, loans, and scholarships

I hope these resources will be helpful to you as you navigate your way to College and Beyond.

Sincerely,

Catherine Cortez Masto
United States Senator

Acknowledgement

The office of Senator Cortez Masto is grateful to our county school districts for providing much of the background material for this guide.

6TH TO 12TH GRADE GUIDELINES

GRADE 6

Parents and students are encouraged to develop a college savings plan.

STUDENTS:

- Ask your counselor about any programs available through STEM 101. This organization seeks to improve economic development for students by improving STEM literacy.
- Attend information day programs at your school to find out about the Nevada System of Higher Education options.
- Visit a middle school counselor to learn about college preparatory classes that might be offered.

PARENTS:

- Ensure your child is enrolled in history or geography, math, English and science classes every year of middle school. These subjects form the core of academic preparation for post-secondary education.
- Encourage your child to challenge themselves academically, attend school regularly, develop good study habits, and get involved in school and community-based extracurricular activities.

GRADE 7

Continue to save for college.

STUDENTS:

- Continue to take history or geography, math, English, and science courses, or other college preparatory classes during each year of middle school.
- If possible, take a foreign language class.
- Keep your grades up and put special effort into math, science, and English.
- Visit a college campus.

PARENTS:

- Discuss career and college options with your child and encourage them to aim high and explore all options.
- Make sure your child starts on a college preparatory track in middle school. If students do not take the right courses in middle school, they may be ineligible for the college preparatory track in high school.
- Find an appropriate tutor, if your child is struggling in college preparatory coursework.

GRADE 8

- Take the ACT ASPIRE assessment test. (www.actaspire.org)
- If you have not taken algebra yet, now is the time.
- Begin to explore the many college and career information resources that are available on the internet.
- Think about college expenses. The best way to prepare for meeting the costs of college is to begin saving early. Set aside money each month, starting now, to build a college fund.

GRADE 9

- Students in high school should be encouraged to begin taking on more college planning work and learn more about Nevada high school graduation requirements.
- Learn about Nevada's Millennium Scholarship requirements at www.nevadatreasurer.gov. The Nevada Millennium Scholarship is a unique opportunity for Nevada residents to obtain financial assistance to attend a Nevada college or university.
- Develop a student planner for courses you will need to take over the next four years to graduate and be eligible for college admission. Coursework should include algebra or geometry, English, social studies, biology, and a foreign language.
- In your student planner, include the projected test dates for the SAT and ACT that will be offered during your junior and senior year. In addition, identify the grade point average (GPA) you will need to meet current admission requirements.
- If you have not already done so, consider taking the ACT ASPIRE assessment test.
- Volunteer and get involved in community service events.
- Begin a resume file. Attach to your planner a list of your activities, awards, community service, and other unique educational experiences. This will serve as the beginning of a resume that you can use when writing admissions and scholarship applications. Think about activities to get involved in over the next three years.
- Ask your high school counselor about any programs available through Jobs for America's Graduates Nevada. JAG Nevada seeks to set high school students on a path to higher education, a career or both.
- Become involved with the AVID (Advancement via Individual Determination) Elective if it is offered in your high school or other college preparatory electives. AVID helps put students on a path to higher education.
- If available, become involved in Upward Bound Programs at colleges near you:
 - UNLV Upward Bound TRIO programs. caeo.unlv.edu/ (702) 895-4777
 - Nevada State College UpwardBound TRIO program. nsc.edu/current-students/trio-upward-bound/ (702) 992-2144
 - UNR Upward Bound program. www.unr.edu/upward-bound (775) 784-6254
 - Truckee Meadows Community College Veterans Upward Bound program. www.tmcc.edu/veterans-upward-bound/ (775) 829-9007

- You may wish to explore the opportunities offered at community colleges through local high schools. Students can take both high school and college courses. Students may graduate high school with college credits completed. This option can also help save families money toward college.
- Parents and students should plan to attend high school open houses, meet with high school counselors, and become familiar with admissions and financial aid processes.

GRADE 10

- Continue to be involved in AVID ELECTIVE.
- Continue to be involved with Upward Bound.
- Continue to keep track of the requirements for the Nevada Millennium Scholarship.
- Update your planner to include completed 9th grade classes and upcoming 10th grade classes.
- Meet with your high school counselor to confirm that you are on the right track. Remember that college requirements and application deadlines might have been updated since you created your student planner during the prior year. You should request updated information annually.
- Your coursework should include geometry or algebra II, English, social studies, chemistry, and a foreign language.
- Consider taking Advanced Placement (AP) courses and exams during their junior year. AP courses are advanced courses that help prepare the student for college-level work. Students who take AP courses are often more prepared for the academic challenges presented in college. Check with your counselor to see if your high school offers AP courses and exams.
- Take the PSAT (Preliminary Scholastic Assessment Test) to help prepare for the SAT (Scholastic Assessment Test), which most students take during their junior or senior year of high school.
- If you have not already done so, consider taking the ACT ASPIRE assessment test.
- As your college fund continues to grow, begin to investigate federal, state, and private financial aid. Visit local campuses, take visitor tours, and ask the guides about their experiences.
- Parents, you should help your child research and make a list of colleges that he or she would like to attend. Start to investigate price, distance from home, and degree programs.

GRADE 11

- Continue to be involved with AVID ELECTIVE.
- Continue your research on federal, state, and private scholarships. Find out what awards students in your school and community are receiving.
- Update your student planner to include completed 10th grade classes and upcoming 11th grade classes. Your coursework should include advanced math, physics, social studies, and English. Maintain A's and B's. Your Nevada Millennium Scholarship depends on it.
- Remember, the Millennium Scholarship is your financial passport to Nevada's colleges and universities.
- Nevada's colleges and universities offer courses for dual credit. That means when you take a recognized college course you receive both high school and college credit. Talk to your counselor to see if your high school has a dual credit agreement with your local university or community college.
- Here are a few examples of high schools/universities that offer dual credit courses:
 - Nevada State High School: earlycollegenv.com/academics/college-courses/ (702) 953-2600
 - College of Southern Nevada: csnhighschool.wixsite.com/csnhs
 - University of Nevada, Las Vegas: www.unlv.edu/asc/dual-enrollment (702) 895-0442
 - Great Basin College: www.gbcnv.edu/academics/dualcredit.html (775) 777-1807
- Consider taking AP (Advanced Placement) classes.
- Check if your school offers the Preliminary Scholastic Assessment Test/ National Merit Scholarship Qualifying Test (PSAT/NMSQT). This practice test helps prepare you for the Scholastic Assessment Test (SAT). A student who does well on this test, and who meets many other academic performance criteria, may qualify for the National Merit Scholarship Program. For more information, talk to your guidance counselor, or call the National Merit Scholarship Program office directly at (847) 866-5100
- Prepare for the ACT or SAT by reviewing books with testing tips and sample questions. These can be found in bookstores, libraries, and schools, or accessed on the Internet. Attend a workshop on how to prepare for the exam. Financial aid may be available for some workshops and test fees. Find more information about these tests by visiting their websites at www.act.org (ACT) and www.sat.collegeboard.org/home (SAT).

- Take your college entrance exams (ACT or SAT) in the spring or summer. You will get the results back in time to see if you need to retake the test in the fall of your senior year. Register for exams one or more months in advance, or sooner. Add test scores to your student planner when received.
- Attend college and vocational fairs and sessions with college representatives at your school to get more information. All Nevada colleges and universities have programs for visiting high school students.
- Create a list of potential institutions that you would like to attend. Send letters or emails requesting information, and evaluate the materials with your parents.
- Make an appointment to attend a campus tour.
- Schedule an appointment with a college financial aid counselor to learn more about financial aid opportunities. Be sure to bring your parents or family members, their participation is important and everyone will gain very valuable information.
- Parents, make sure your child takes any required college admissions tests and submits all admissions, financial aid, and any campus housing paperwork on time. It is crucial that you are aware of the submission deadlines — They vary among schools and are subject to change.

GRADE 12

EARLY AUGUST:

- Continue to be involved with AVID ELECTIVE.
- Continue to visit and obtain information on the colleges or universities that you have included on your potential list.
- Continue the application process. You and your family should meet with your guidance counselor to become familiar with the admission and financial aid processes. Some universities and colleges have fall deadlines while others have spring deadlines.
- Review transcripts with your guidance counselor to ensure that they are accurate and you are meeting all of your college preparatory and Nevada Millennium Scholarship requirements. Review your college plans and evaluate them in light of your test scores and junior year grades.
- Register for the ACT or SAT if you either did not take the test last year, or if you have decided to retake the test.
- Update your student planner to include completed 11th grade classes and upcoming 12th grade classes.
- Keep these dates in your student planner: the **UNLV Priority Application and Scholarship Deadline is November 1st** and the **UNR Priority Application and Scholarship Deadline is February 1st**.
- Setting up a calendar with all the various tasks and deadlines associated with the application process will be very helpful to submit paperwork on time. Set aside plenty of time to draft, edit, and re-write application essays.

EARLY OCTOBER:

- Work with your parents to complete the FAFSA on or as soon after October 1 as possible. Once you complete your FAFSA, you should receive the Student Aid Report (SAR) from the financial aid processor. If you provide a valid e-mail address on your FAFSA, you will receive an email within 3 to 5 days with instructions on how to access an online copy of your SAR. If you do not provide a valid email address, your SAR will be mailed to you via postal mail within 7 to 10 days. If you have not received your SAR within the appropriate time line, check your status online at www.fafsa.ed.gov, or call 1-800-4-FED-AID (1-800-433-3243).
- Keep track of all application deadlines and file yours accordingly. If you want to live on campus, complete a housing/meal plan application.
- **UNLV Priority Application and Scholarship Deadline is November 1st**.

JANUARY:

Request that your high school send the transcript of the first semester of your senior year to the colleges where you have applied.

FEBRUARY/MARCH:

- Make sure that all application materials are sent and received on time.
- Review your SAR for accuracy. If necessary, correct any inaccurate items on your SAR on the website www.fafsa.ed.gov. If you filed a FAFSA online, you must make your corrections online. If you filed a paper FAFSA, you may make your corrections online or on your paper SAR and mail it to the federal processor. For electronic corrections, you will receive an email notification that your corrections are processed within 3 to 5 days. In order for colleges to receive your SAR information, you should list them on your FAFSA. You may add colleges after your FAFSA is processed by making a correction. Even if your SAR says you are not eligible to receive a Federal Pell Grant, you should list all prospective colleges on your FAFSA because the college may be able to offer you other aid based on the information in that report.

APRIL:

- Review your financial aid award letters with your parents. Be sure that you understand the terms and conditions that apply to each type of aid offered, as well as how much of your educational expenses the aid will be covering. Many institutions send financial aid award notifications electronically; it helps to know what to expect from your chosen college.
- Review all acceptance letters. Decide on where you will attend and send in your tuition deposit. If you are unable to cover the tuition deposit, contact the financial aid or admissions office to inquire about deposit waivers or payment plans. Notify all other institutions in writing that you have selected another school by May 1st. Other applicants will be hoping to receive your spot.
- If you are on a college waiting list, notify the admissions office that you are still interested.

MAY:

Parents, you should devise a budget with your child and determine how much will be covered by financial aid, how much you will provide, and how much your child will contribute by working and/or borrowing.

JUNE:

- Request that your high school send a copy of your final transcripts to the college you will attend. Notify the college of any private grants or scholarships you will receive, as this may affect your other financial aid awards.
- Find out when payment for tuition, room, board, etc., will be due. **Be sure that you understand how financial aid will be disbursed and whether you can defer bill payments until the funds are available.**

JULY/AUGUST:

- Look for information from your new college about housing, orientation, course selection, etc.
- If you are attending a Nevada college or university, you will receive a Millennium Scholarship award notification. Your notification comes from the Nevada Treasurer's Office and will include instructions on how to complete your Letter of Acknowledgement. This step must be completed before your college can process your Millennium Award. Once this is done, verify that the Millennium Scholarship appears on your financial aid award letter. If it does not, you should contact your campus financial aid office.
- Celebrate and begin getting ready for college. Pack and look forward to an exciting and rewarding experience!

GIFTED AND TALENTED EDUCATION AND MAGNET PROGRAMS

Gifted and Talented Education is a program tailored to students who demonstrate high achievement capability in areas such as intellectual, creative, artistic, leadership capacity, or in other specific academic fields, and who need services and activities not ordinarily provided by their school in order to fully develop those capabilities.

The Department of GATE Programs in **Washoe County** considers the following for admission into the Magnet program:

- Cognitive assessment score
- Teacher endorsement
- Parent questionnaire
- Core content grade point average (GPA)
- Reading and math MAP scores

Magnet Schools and Career and Technical Academies in **Clark County** focus on specialized teaching and learning to improve student achievement. These schools also improve student and community integration through a focused curriculum. Furthermore, they provide learning environments that match students' interests and abilities.

Applying to a Magnet School or Career and Technical Academy is as easy as submitting either an online application or completing a paper application and submitting it to your 1st choice school no later than January 9. Any high school Magnet/CTA applicant who currently attends a charter, private or other non-CCSD school must submit a copy of their first trimester or first semester report card from the previous school year. The report card must include: course title and grade, attendance, and conduct grade.

ELEMENTARY SCHOOLS WITH A FOCUSED CURRICULUM

Northern Nevada:

- Alice Smith Elementary School
- Hidden Valley Elementary School
- Lemelson STEM Academy
- Melton Elementary School
- Sun Valley Elementary School
- Van Gorder Elementary School

Southern Nevada:

- Walter Bracken STEAM Academy
- Kit Carson International Academy
- Roger D. Gehring Academy of Science and Technology
- Gilbert Magnet School for Communication and Creative Arts
- Mabel Hoggard Math and Science Magnet School
- Jo Mackey Academy of Leadership and Global Communication
- Gordon McCaw STEAM Academy
- Clarence Piggott Elementary School
- Sandy Searles Miller Academy of International Studies
- Shelia R. Tarr Academy of International Studies

MIDDLE SCHOOLS WITH A FOCUSED CURRICULUM

Northern Nevada Middle School Magnet Programs:

- Clayton Middle School
- Mendive Middle School
- Pine Middle School
- Swope Middle School

Southern Nevada Middle School Magnet Programs:

- Bridger Middle School STEAM Academy
- B. Mahlon Brown Academy of International Studies
- Cashman Middle School Academy of Mathematics, Science, and Engineering
- Robert O. Gibson Middle School Leadership Academy
- Kenny C. Guinn Middle School
- Hyde Park Academy of Science and Mathematics
- Walter Johnson Junior High School
- K.O. Knudson Middle School
- Lied STEM Academy
- Roy Martin Middle School
- Mike O'Callaghan i3 Learn Academy
- Thurman White Middle School Academy for the Performing Arts

SIGNATURE ACADEMIES AND CAREER TECHNICAL TRAINING

WASHOE COUNTY HIGH SCHOOL SIGNATURE ACADEMIES AND CAREER & TECHNICAL

Academy of Arts, Careers and Technology

- A Signature School featuring Business, Communication Arts, Culinary & Hospitality, Education, Engineering, Medical Careers, Natural Resources & Animal Science

Damonte Ranch Performing Arts Center

- Theater, Dance, Instrumental Music, and Choir

*Please Note: Students applying to Damonte need to call Damonte Ranch High School and schedule an audition time prior to submitting an application. Contact number is (775) 321-3908.

Galena STEM Academy

- Project Lead the Way: Aerospace Engineering and Environmental Engineering

Hug Health Sciences Academy

- Medical Careers (Sports Medicine) and Community Health & Human Services (Human Development, Culinary/Baking)

McQueen Global Studies Academy

- International Studies (World Languages) and Fine Arts (Visual Art, Music)

North Valleys Center for Agricultural Science and Engineering

- Agricultural Engineering (Drafting, Diesel, Fabrication) and Natural Resource Management

Reed Enterprise Project

- Civil & Environmental Engineering (Drafting, Auto, Metalworking, Energy), Biomedical and Human Services

Reno Red House Project

- Animation, Graphic Design, Video Production, Web Design

Sparks Information Technology Academy

- Tech Science (Animation, Web Design) and Manufacturing Technology

Spanish Springs Academy

- C3 Media (Publication, Graphic Design/Photography, Video Production, Web Design) and Sports Medicine

Wooster High School

- A Signature School featuring International Baccalaureate Curriculum: Middle Years (BMYP), Diploma (IBDP) and Career-related (IBCP) Programs

Reno Red House Project

- Animation, Graphic Design, Video Production, Web Design

For admissions and application information for any of these academies please visit:

380 Edison Way
Reno, Nevada 89502
Phone: (775) 327.3945
Fax: (775) 861.1299
Website: www.washoeschools.net/Page/1168

CLARK COUNTY HIGH SCHOOL SIGNATURE ACADEMIES AND CAREER & TECHNICAL TRAINING

Basic Academy of International Studies

- Automotive, Entrepreneurship, Early Childhood Development, Fashion and Design, and Video Production
Canyon Springs High School
– Leadership and Law Preparatory

Ed Clark High School

- Finance, Math, Science and Applied Technology (AMSAT) and Teacher Education (TEACH)

Del Sol Academy for the Performing Arts

- Costume Design, Dance, Guitar, Mariachi, Music Production, Theater, and Technical Theater

Desert Pines High School

- Animation, Culinary Arts, Radio Production, Sports Marketing, and Video Production

Eldorado High School

- Video Game Technology and Web Design

Las Vegas Academy of the Arts

- Band, Japanese, Creative Writing, Dance, French, Guitar, Jazz, Mariachi, Orchestra, Piano, Spanish, Theater, Technical Theater, Video Production, Visual Arts, and Vocal Performance

Rancho High School Academies of Aviation and Medical Sciences

- Aerospace Engineering, Private Pilot, and Medical/Pre-Medical

Valley High School

- Hospitality and Tourism, International Baccalaureate Program

For admissions and application information for any of these academies please visit:

3050 E. Flamingo Road
Las Vegas, NV 89119
Phone: 702-799-8492
Email: magnetschools@nv.ccsd.net

HIGH SCHOOL GRADUATION INFORMATION

NEVADA HIGH SCHOOL GRADUATION REQUIREMENTS

To graduate from a Nevada high school, you must complete the following course requirements:

English - 4 courses	Arts/Humanities - 1 course
Mathematics - 3 courses	Physical Education - 2 courses
Science - 2 courses	Health Education - ½ course
U.S. History - 1 course	Use of Computers - ½ course
U.S. Government - 1 course	Electives - 7.5 courses

Total = 22.5 courses

NEVADA HIGH SCHOOL DIPLOMA

Beginning with the class of 2018, students are required to participate in a final exam that pertains to each of their courses. Students must participate in the final exam and pass the class as a whole in order to receive a diploma.

UPWARD BOUND

Upward Bound provides first-generation, income-qualified students with free college preparatory services and support to develop the skills and knowledge essential for successful admission, persistence, and completion of postsecondary education.

To qualify, the student must be:

- From an income qualified family; AND/OR
- From a family where neither parent with whom student resides has a four-year college degree; AND
- U.S. citizen, or permanent resident of the U.S.; AND
- Between the ages of 14 and 18 years of age

For more information on Upward Bound, visit:

- UNLV Upward Bound TRIO programs: caeo.unlv.edu/
(702) 895-4777
- UNR Upward Bound program: www.unr.edu/upward-bound
(775) 784-6254
- Nevada State College Upward Bound TRIO program:
nsc.edu/current-students/trio-upward-bound/
(702) 992-2144
- Truckee Meadows Community College Veterans Upward Bound
program. www.tmcc.edu/veterans-upward-bound/
(775) 829-9007

AVID ELECTIVE

The AVID Elective targets students in the academic middle—B, C, and even D students—with the desire to go to college and the willingness to work hard. These are students who are capable of completing rigorous curriculum but are falling short of their potential.

Please visit: www.washoeschools.net/Page/5515 or contact the Clark County School District at (702) 799-0781 for more information.

SELECTING A COLLEGE

SOME QUESTIONS TO CONSIDER

Of the more than 2,000 American colleges and universities, no two are alike. Choosing the one that is just right for you requires research. This research must be done in two ways: by researching the schools that interest the student and by reflecting on what the personal considerations and career goals are for the student.

Research on the colleges can be done on the internet, by reviewing catalogs, visiting the campus itself, or by talking to students who have attended the college in question. The questions to ask related to the personal and career goals of the student are: What are my needs? What kind of college or university will satisfy those needs? What size school would be best for me? In what kind of setting are you most comfortable? Near a big city? In a small town? Close to home? Out of state? Your comfort level will affect every aspect of your time in college.

WHAT SIZE SCHOOL WOULD BE BEST FOR ME?

- Large universities often provide many academic, athletic, and social options for their diverse student populations.
- Small universities typically offer a more intimate setting with an opportunity to more closely work with professors in smaller class settings.

WHAT KIND OF SCHOOL WOULD BE BEST FOR ME?

- Private schools may have high entrance standards and high tuition rates, while public schools generally offer lower tuition rates to in-state students.
- Large universities often provide many academic, athletic, and social options for their student populations, and small schools typically offer a more intimate setting with smaller class sizes.
- Liberal Arts colleges emphasize a well-rounded educational foundation upon which further studies can lead to success in a number of possible careers. Because enrollment is usually small, students and faculty have more opportunity to interact.
- Specialized colleges offer focused study in a particular area of interest, such as computer graphics, business, or the arts. If you are certain of your career field, these schools will allow you to specialize in that area.

HOW DIFFICULT ARE THE ENTRANCE REQUIREMENTS?

- Some schools have rigid entrance policies, while others are more flexible. Your task is to review the requirements of the schools that interest you and compare them to your high school record. Most of your applications should go to the schools whose requirements most closely match your record. However, a few applications to schools whose acceptance criteria may be a challenge are also recommended.

HOW MUCH CAN I AFFORD TO SPEND?

- Even though the cost of a college education will repay itself many times over during your lifetime, you must start with a practical assessment of your resources: your family's contribution, scholarships, grants, loans, part time work, etc.

HOW DO I CHOOSE A MAJOR?

- The choice of a major also hinges upon your choice of a career. What kind of work do you want to do? Choosing a college then will be a matter of researching schools that offer programs in your chosen career.

THE CAMPUS VISIT

Two of the best reasons for the campus visit are to see first-hand what the physical facilities are like and to get a sense of the atmosphere of the college. It is also an opportunity to talk to a student tour guide and ask about student life. Try to take the tour before your interview.

QUESTIONS TO ASK THE TOUR GUIDE OR ADMISSIONS COUNSELOR

- How do students feel about the course load?
- What is the relationship between faculty and students?
- Are professors available or required to see undergraduates during office hours?
- Are most courses taught by professors, or are most courses taught by graduate students?
- What is an average class size?
- Is there a fraternity and/or sorority system?
- Is the student social life centered on campus? What kinds of activities are offered?
- Do students stay on campus on the weekend?
- Do students need a car on campus? Can freshmen have cars on campus?
- Are students advised well? Is academic counseling easily accessible?
- What academic tutoring and/or personal counseling services are available for students who are experiencing difficulties adjusting to college?
- What provisions are made for campus safety? Is the surrounding area safe?
- Is on-campus housing available? Where do most students live?
- Are health services available on campus?
- Where can I find on campus employment?
- Are there work study opportunities on campus?

APPLYING TO COLLEGE

The Application Process

When you are seeking admission to a postsecondary school, the application process will be time-consuming. Not all institutions use the same process, but some aspects of the application process are common to most. Since you will be competing with other applicants, you will want to adhere to deadlines and complete the process thoroughly. The typical application process involves the following: The application is a comprehensive form from a school that you fill out so the school can gather information about you.

- The entrance exams such as the ACT or SAT are necessary for applications for most schools.

- Transcripts are required by nearly all postsecondary schools to review courses taken, grades received, attendance, and test scores.
- The resume is a written summary of your educational background, achievements, experience, awards, and so forth.
- Letters of recommendation are letters written about your qualifications.
- The essay is a composition written by you on a topic selected by the school.
- Application fees are charged by some schools.
- The interview is a question and answer session between you and the representative of a school.
- The campus visit is an opportunity for you to gather information firsthand and to experience the campus atmosphere.

UNLV

UNIVERSITY OF NEVADA LAS VEGAS

NEVADA COLLEGE AND UNIVERSITY INFORMATION

COMMUNITY AND TWO-YEAR COLLEGES

The Nevada System of Higher Education (NSHE) has four well-regarded two-year colleges. These schools offer affordable tuition, substantial career preparation, and the chance to combine part-time work with education. Students can earn certificates or associate degrees.

CERTIFICATE PROGRAMS

Certificates are awarded for completed work in such fields as Heating, Ventilation, and Air Conditioning, banking, automotive technology, office administration, child care, and many other areas. A certificate is not a college degree. Most certificate programs take at least one year to complete, and are similar to programs that trade and technical schools offer.

TWO-YEAR ASSOCIATE DEGREES — TERMINAL AND TRANSFER

- A terminal degree is a two-year associate degree that is not transferable to a four-year institution. A “terminal” program is designed to make a person “job ready” for a specific occupation. Terminal degrees are available in such fields as business management, electronic engineering technology, graphic technology, and many other areas.
- A transfer degree is a two-year associate degree that is transferable to a four-year institution. After graduation with a two-year associate degree, students can transfer to a four-year institution and receive a bachelor’s degree after two or three additional years of study. It is essential that careful research into the requirements of the four-year institution be completed so that transfer of credits will occur. Be sure to research the specific admission requirements for each community college because admissions requirements vary from school to school.

COLLEGE OF SOUTHERN NEVADA

Website: www.csn.edu

Phone: (702) 650-2276

Location: Cheyenne, West Charleston & Henderson Campuses in Southern Nevada

The College of Southern Nevada offers two-year associate degrees and one year certificates of achievement in more than 200 career fields, university transfer preparation, and skill training to secure employment or professional development.

TRUCKEE MEADOWS COMMUNITY COLLEGE

Website: www.tmcc.edu

Phone: (775) 673-7000

Location: Reno

Truckee Meadows Community College (TMCC) is a comprehensive community college located in Reno. With five college sites and more than 20 community locations, TMCC serves more than 25,000 students each year in state-supported programs and another 12,000 students in non-credit workforce development classes.

TMCC TECHNICAL SCIENCES DIVISION

The Technical Sciences Division offers a diverse selection of career training programs including: Apprenticeship, Computer Technologies, Construction and Design Technologies, Criminal Justice, Energy Technologies, Manufacturing Technologies and Transportation Technologies. The faculty and staff are committed to providing high quality training that is responsive to the needs of students and employers.

- Panasonic Preferred Pathway (P3) Training Program
- Construction and Design Technologies
- Energy Technologies
- Manufacturing Technologies
- Transportation Technologies
- Air Conditioning (HVAC Technologies)
- Unmanned Aerial Systems
- Production Technician Certificate of Achievement
- Diesel Technology Certificate of Achievement

GREAT BASIN COLLEGE

Website: www.gbcnv.edu

Phone: (775) 738-8493

Location: Elko

Great Basin College serves five counties in northeastern Nevada, featuring select bachelor's degrees, two-year associate degrees, and one-year certificates of achievement.

WESTERN NEVADA COLLEGE

Website: www.wnc.edu

Phone: (775) 445-3000

Location: Carson City

Western Nevada College offers more than 50 associate degrees or certificate of achievement programs.

UNIVERSITIES AND FOUR-YEAR COLLEGES

Nevada has four primary four-year colleges and universities. Four-year institutions usually offer two years of general education in core courses such as English, math, and science, after which students spend the next two or more years specializing in courses related to a major field of study.

NEVADA STATE COLLEGE

Website: www.nsc.nevada.edu

Phone: (702) 992-2000

Location: Henderson

Nevada State College, the newest four-year college within the Nevada System of Higher Education, offers bachelor's degrees in business, education, nursing, visual media and computing, biology, environmental science, psychology, English, history, law enforcement, and more.

SIERRA NEVADA COLLEGE

Location: Incline Village

Sierra Nevada College is Nevada's only private four-year liberal arts college. The college has programs in environmental science, entrepreneurship, computer science/entertainment technology, management, humanities, social sciences, and fine arts. The college also offers a Master of Arts in teaching degree.

UNIVERSITY OF NEVADA, LAS VEGAS

Website: www.unlv.edu

Phone: (702) 774-UNLV(8658) or (702) 895-3011

Location: Las Vegas

The University of Nevada, Las Vegas (UNLV) has been designated by the Carnegie Foundation as a Highest Research Activity (R1) University. UNLV offers more than 200 undergraduate, graduate and doctoral degree programs including innovative academic degrees in such fields as medicine, gaming and hospitality management, entrepreneurship, entertainment, engineering, and much more. Las Vegas offers students a "living laboratory" for research, internships, and a wide variety of job opportunities. UNLV is dedicated to developing and supporting the human capital, regional infrastructure, and economic diversification that Nevada needs for a sustainable future.

UNIVERSITY OF NEVADA, RENO

Website: www.unr.edu

Phone: (866) 2-NEVADA (263-8232) or (775) 784-4700

Location: Reno

Established in 1874, the University of Nevada, Reno (UNR) is the oldest institution of higher education in Nevada. It is a National Tier 1 University and offers more than 70 undergraduate majors and 150 academic programs. At the university, undergraduate students have the opportunity to participate in a diverse range of research projects, working closely with faculty mentors. With more than \$80 million in research funding, UNR is the leading research facility in Nevada's higher-education system. Students can get involved with more than 150 clubs and organizations, sororities, fraternities, and the study abroad program. Eight residence halls offer a variety of living options, including living learning communities. Aside from receiving an extraordinary education, UNR offers numerous opportunities for financial aid and scholarships. All entering students admitted with qualifying GPAs and test scores (ACT/SAT) are automatically considered for scholarships. Colleges, departments, and other student government and activity programs also offer a wide range of scholarship opportunities to qualified applicants.

SUMMER BRIDGE PROGRAMS

Once you have chosen the college you wish to attend, you may want to consider enrolling in a **Summer Bridge Program**. As described by the U.S. Department of Education, these programs are designed to ease the transition to college and support postsecondary success by providing students with academic skills and social resources needed to succeed in a college environment. These programs take place during the summer between high school graduation and college and vary across higher education institutions.

A list of the Summer Bridge Programs available across the Nevada System of Higher Education is provided below:

- UNLV's Math Bridge and First-Gen Connect Student Services Conference: www.unlv.edu/asc/bridge
- CSN's TRIO Summer Bridge Program: www.csn.edu/trio-summer-bridge
- Nevada State College Nepantla Program: nsc.edu/current-students/nepantla/
- TMCC's Success First Program: www.tmcc.edu/access-outreach-recruitment/success-first-program/

TECHNICAL AND TRADE SCHOOLS

There are more than 100 privately-owned postsecondary schools licensed by the State of Nevada. Technical and trade schools offer short-term programs emphasizing specific skills to facilitate immediate placement in the workforce.

Many of these licensed schools are also accredited by regional and/or national accrediting associations. A school does not have to be accredited to operate in Nevada as long as the school has met all the state requirements for licensing. A school cannot operate without a state license.

Accredited schools have access to federal funding and can offer federal loans and grants. Non-accredited schools often create their own form of financial aid for qualified students.

For more information, call the Commission on Postsecondary Education at (702) 486-7330, or visit www.cpe.state.nv.us.

APPRENTICESHIP PROGRAMS

An apprenticeship is an “earn while you learn” training opportunity that includes paid on-the-job training as well as related classroom instruction.

For more information on apprenticeship opportunities available in Southern Nevada and beyond, please visit: <https://apprenticeship.ccsd.net>.

MILITARY OPPORTUNITIES

For those looking to serve, or who have served in our nation's Armed Forces, there are many resources available for pursuing educational goals. Immediate benefits include educational and career training through technical schools, the opportunity to become a commissioned officer through military academies or college Reserve Officer Training Corps (ROTC), travel, free medical and dental care, lower cost commissary and post exchange service, guaranteed pay, promotional opportunities, access to a cadre of trained consultants and counselors, and free legal assistance. Long-term benefits may include G.I. Bill awards, scholarships, fellowships, pay bonuses, 30-day annual paid vacation, certain housing, medical, and educational services for families, low-cost life insurance, FHA loans, lifetime retirement benefits after 20 years of service, and job retention rights for veteran federal workers.

Terms of Enlistment: There is a mandatory eight-year service obligation for all branches of the military, which is split between active duty and inactive reserve duty. The active duty component can vary depending on the branch and job, but is most frequently 4-6 years. Check with military recruiters for more details.

Qualifications: All prospective recruits take the Armed Services Vocational Aptitude Battery (ASVAB). Test results on the ASVAB determine your qualifications for enlistment and job-training opportunities. The ASVAB is given at high schools, or testing arrangements can be made with military recruiters.

RESERVE OFFICERS' TRAINING CORPS (ROTC)

ROTC is a highly selective process whereby a student must be admitted to a college/university that offers ROTC and their academic major of study. The process includes an evaluation of your high school grades, ACT/SAT scores, selected major of study, and a personal interview by a military officer. If you are awarded an ROTC scholarship, you will attend a traditional college/university, which will include ROTC classes once or twice a week and the wearing of a military uniform one day a week. This may vary depending upon the

branch of the military and the college/university you attend. There are also two and three-year ROTC scholarships available to students while in college. A student may enter the ROTC program without a scholarship, with the goal of becoming a military officer upon graduation from college. A scholarship may be awarded before the 2nd or 3rd year of college attendance and is determined by college GPA and ROTC participation and leadership.

UNITED STATES SERVICE ACADEMIES

Higher education opportunities for students who want to serve their country include service academy Appointments to the U.S. Service Academies and Reserve Officer Training Corps Scholarships. The service academies are four year federally funded military universities in which students who attend and graduate earn a Bachelor of Science degree and a commission into the U.S. Military. Most of the academies offer full-ride scholarships. Students who attend the Air Force, Coast Guard, Navy, and Military Academies receive a full scholarship, commonly called an Appointment. **The general minimum service obligation is 5 years on active duty.** Selection is highly competitive and is based on types of courses taken, GPA, leadership potential, extracurricular activities, medical and physical aptitude. Additionally, there are general basic admission requirements: **be a U.S. citizen of good moral character, between 17 and 23 years old by the year of entry, unmarried and without dependents.** Research each academy for specific requirements. It is strongly recommended to take pre-calculus and calculus courses by your senior year of high school.

The process requires a nomination, an application for each respective academy, a medical exam, and a physical fitness test. *Note, the Coast Guard Academy does not require nominations. Most nominations are made by members of the U.S. Congress through a selective process that requires an application and an interview.

Nominations are not guaranteed, therefore, to be competitive it is necessary to submit applications inform with your U.S. Representative and both U.S. Senators in Nevada. It is your responsibility to be certain that your academy application file is **complete by October 31st** of your senior year of high school.

High School Juniors: Many of the service academies have 1 week programs for high school juniors the summer prior to the start of senior year. Please visit the respective academy websites for application information.

UNITED STATES AIR FORCE ACADEMY (COLORADO SPRINGS, CO)

www.academyadmissions.com

Mission: The mission of the United States Air Force Academy is to educate, train, and inspire men and women to become leaders of character, motivated to lead the United States Air Force in service to our nation.

Eligibility: The recommended high school course of study is four years each of English, math, and science; three years of social studies; one year of computer science; and two years of a foreign language.

Application Requirements: A Nomination, ACT or SAT I scores by December of senior year; completed Pre-Candidate Questionnaire; formal application if selected after initial screening; DoDMERB medical evaluation, and physical fitness examinations.

Please visit the admissions website for additional requirements.

UNITED STATES COAST GUARD ACADEMY (NEW LONDON, CT)

www.uscga.edu

Mission: The mission of the United States Coast Guard Academy is to graduate young men and women with sound bodies, stout hearts and alert minds, with a liking for the sea and its lore, and with that high sense of honor, loyalty and obedience which goes with trained initiative and leadership; well-grounded in seamanship, the sciences and amenities, and strong in the resolve to be worthy of the traditions of commissioned officers in the United States Coast Guard in the service of their country and humanity.

Eligibility: The United States Coast Guard Academy is the only Armed Forces service academy which tenders appointments solely on the basis of an annual nationwide competition. There are no congressional appointments, nor are there any geographical quotas. The competition for appointment as a cadet is based on your high school rank; your performance on the SAT I or ACT; and your leadership potential as demonstrated by participation in high school extracurricular activities, community affairs, or part-time employment. You must have reached the age of 17, but not have reached the age of 22 by July 1 of the year you are to be admitted as a cadet. The recommended high school course of study is four years each of English, math, and science; three years of social studies; one year of computer science; and two years of a foreign language.

Application Requirements: ACT or SAT I scores by December of senior year; completed initial online application, essays, required forms, supplemental forms, DoDMERB medical evaluation, physical fitness examination and an interview.

Please visit the admissions website for additional requirements.

UNITED STATES MERCHANT MARINE ACADEMY (KINGS POINT, NY)

www.usmma.edu

Mission: To educate and graduate leaders of exemplary character who are inspired to serve the national security, marine transportation, and economic needs of the United States as licensed Merchant Marine Officers and commissioned officers in the Armed Forces.

Eligibility: To qualify for appointment consideration, you must be at least 17 years old and not over 25 years old by the time of entry; be a U.S. citizen; be of high moral character; meet leadership, academic, physical, and medical standards for a U.S. Navy Reserve commission; have participated in extracurricular activities; and obtain a congressional nomination. The academy strongly recommends four years of math (calculus), chemistry, and physics.

Application Requirements: Congressional Nomination, ACT or SAT I scores by February 1 of their year of entry; completed online application; DoDMERB medical evaluation, and physical fitness examinations.

**Students who graduate from the Merchant Marine Academy have the option to choose the military branch that they serve in either on active duty or as a reservist. Please visit the admissions website for additional requirements.*

UNITED STATES MILITARY ACADEMY (WEST POINT, NY)

www.usma.edu

Mission: The mission of the United States Military Academy is to educate, train, and inspire the Corps of Cadets so that each graduate is a commissioned leader of character committed to the values of Duty, Honor, Country and prepared for a career of professional excellence and service to the Nation as an officer in the United States Army.

Eligibility: Each candidate must be 17 but not yet 23 years of age by July 1 of the year admitted; be a U.S. citizen at the time of enrollment (exception: foreign students nominated by agreement between U.S. and another country); be unmarried with no dependents or pregnancy; have an above-average high school or college academic record; plus strong performance on the ACT or SAT I. West Point encourages a strong college preparation: four years of English — with emphasis on composition, grammar, literature, speech; four years of math — algebra, geometry, algebra II, trigonometry; two years of a foreign language; two years of laboratory science such as chemistry and physics; and one year of U.S. History.

Application Requirements: A Nomination. You may start a file at West Point by completing a Pre-Candidate Questionnaire; fill out U.S. Military Academy forms; take the ACT by February or the SAT I by January of your senior year of high school; take the DoDMERB medical exam and candidate fitness assessment.

Please visit the admissions website for additional requirements.

UNITED STATES NAVAL ACADEMY (ANNAPOLIS, MD)

www.usna.edu

Mission: The mission of the United States Naval Academy is to develop Midshipmen morally, mentally, and physically and imbue them with the highest ideals of duty, honor, and loyalty in order to graduate leaders who are dedicated to a career of Naval service and have potential for future development in mind and character to assume the highest responsibilities of command, citizenship, and government.

Eligibility: The candidate must be between 17 and 23 years old by July 1 of the year of admission; unmarried; not pregnant and have no legal obligation to support a child, children, or other individual; a United States citizen (except for the limited quotas of foreign midshipmen specifically authorized by Congress); be of good moral character; be scholastically qualified; be medically and physically qualified; and receive an official preparatory background as a prerequisite for admission.

Recommended areas of preparation include four years of English; four years of math including algebra, geometry, algebra II, trigonometry, pre-calculus or calculus; two years of a foreign language; two years of laboratory science,

including chemistry and physics; one year of U.S. History; one year of world history; and introductory computer courses.

Application Requirements: A Nomination; Pre-Candidate Questionnaire; an official transcript, including ACT or SAT scores; online application (if passed initial screening); a physical aptitude examination; DoDMERB medical examination; and an interview.

Please visit the admissions website for additional requirements.

STUDENT VETERANS AND FAMILY MEMBERS

For student veterans, active duty military members, or surviving family members attending college in Nevada as well as those using VA benefits, schools have specific resources aimed at promoting your success. It is encouraged that you look into these programs and services. The applicant's household adjusted gross income in the previous year must have been \$74,999 or less. Lifetime maximum in matching grants is \$1,500. For information and application, go to www.ssga.upromise529.com/home/nevada-benefits/silver-state-matching-grant.html.

Sponsor: State Treasurer

Amount: Up to \$300 per calendar year

SILVER STATE OPPORTUNITY GRANT

The Silver State Opportunity Grant Program (SSOG Program) is a state-supported financial aid program created by the 2015 Legislature pursuant to Senate Bill 227. Under the SSOG Program, need based grants will be awarded to eligible low income students who are college-ready to pay for a portion of the cost of education at a community college or state college within the Nevada System of Higher Education (NSHE). This unique program is built on a shared responsibility model and guided by a philosophy for awarding grant aid based on the total cost of attendance (tuition and fees, books and supplies, room and board, and other living expenses) being shared by partners (the state, federal government, family, and the student). For more information, visit nshe.nevada.edu/administration/academic-student-affairs/financial-aid/silver-state-opportunity-grant-program/.

STELLA MASON PARSON SCHOLARSHIP

Eligibility: Graduates of any Nevada high school or local area community college who are of African American descent with financial need and who plan to attend the University of Nevada, Reno. Preference is for majors in Psychology, Education or any related field. Minimum 2.5 GPA. Full time enrollment. See www.unr.edu/financial-aid/understanding-financial-aid/scholarships for the UNR Foundation Scholarship form.

STUDENT LOANS

Taking out student loans is often one-way for students to finance their dreams of going to college; however, they must be paid back with interest. Therefore, it is important for prospective students to learn about the different kinds of student loans before borrowing.

For a comprehensive look at the types of student loans and how much they could cost you, visit: bigfuture.collegeboard.org/pay-for-college/loans/types-of-college-loans.

For information on the Free Application for Federal Student Aid (FAFSA), visit: fafsa.ed.gov/FOTWebApp.

FEDERAL PELL GRANTS

Federal Pell Grants are awarded to undergraduate students who display exceptional financial need and have not earned a bachelor's or professional degree. The amounts awarded vary based on your Expected Family Contribution, the total cost of attendance for your program, your status as a full- or part-time student, and your planned duration of attendance.

For more information about the Federal Pell Grant program, please visit: studentaid.ed.gov/sa/types/grants-scholarships/pell.

FOSTER YOUTH RESOURCES

NEVADA FOSTER CARE FEE WAIVER INITIATIVE

On September 6, 2018 the Board of Regents for the Nevada System of Higher Education (NSHE) passed the Nevada Foster Care Fee Waiver. The program allows young adults to register for credit courses waiving registration fee, and certain laboratory fees, for the spring and fall semesters, similar to the current waiver for members of the Nevada National Guard. To be eligible students must have been in foster care, in Nevada, at some point on or after the age of 14, graduated from a High School – or passed the TASC, HiSet or GED, and are currently under the age of 26. For more information, please contact local DCFS office, the respective college and visit: nshe.nevada.edu/2018/09/board-of-regents-approve-nevada-foster-care-fee-waiver-initiative/

STEP UP

A program with the mission to assist foster youth in making the transition from foster care to economic self-sufficiency is located in Clark County. Step Up provides case management services for young adults assisting with independence skills, employment, rent, and transportation needs. To qualify, a person would need to have attained the age of 18 years while a child in foster care in Nevada and be under the age of 21. For more information visit: www.clarkcountynv.gov/social-service/services/Pages/Step%20up.aspx

IMMIGRANT STUDENT RESOURCES

RESOURCES FOR DACA AND UNDOCUMENTED STUDENTS

As the granddaughter and great granddaughter of immigrants, I understand how important immigrant communities are to the success of this country. My family came to the United States from Mexico and Italy seeking a better life and were willing to put in the hard work to achieve and prosper. Now, generations later, I'm so proud to have been elected the first woman Senator from Nevada, and the first Latina in American history. And I'm fighting to ensure that in Nevada, and across the country, we have even more firsts.

I firmly believe that a student's country of origin or immigration status shouldn't prevent them from pursuing and achieving their dreams.

Below you will find useful college resources for undocumented students, as well as contact details to connect you with specialists on DACA and issues related to immigrant students:
