

Brian Neuman VA Clothing Allowance Improvement Act of 2021

Senator Catherine Cortez Masto & Senator John Boozman

The Department of Veterans Affairs (VA) will provide a clothing allowance to a veteran if his/her prosthetic or orthopedic device or skin medicine causes damage to his/her clothes, and they need this device or skin medicine because of a service-connected condition (e.g., limb loss, severe burns). Approximately 40,000 veterans were approved for the clothing allowance benefit in Fiscal Year 2020.

Veterans have expressed that reapplying each year is burdensome, particularly those who have a lifelong condition that requires a device or medicine which damages their clothing.

CLOTHING BENEFIT

To receive the benefit, a veteran must file a claim for disability compensation and provide a clothing allowance form to their local VA medical center by August 1. Payments are made between September 1-October 31. A veteran can get \$841.36 paid once, but can reapply in future years if he/she meets one of the following conditions:

- has more than one prosthetic or orthopedic device;
- has more than one skin medicine;
- his/her device or skin medicine affects more than one type of clothing.

BILL SUMMARY

This bill would amend 38 U.S.C. 1162, which authorizes the clothing allowance program. It would add language stating that payments shall continue on an automatically recurring annual basis until the earlier of:

- the date the veteran elects to no longer receive payments; or
- the date on which VA determines the veteran is no longer eligible.

It directs VA to prescribe regulations with standards for determining whether a claim is static. If a claim is non-static, VA shall review it to determine eligibility within five years of the first allowance, on a periodic basis thereafter, and whenever VA receives notice the veteran is no longer eligible.

If VA determines a veteran is no longer eligible, VA shall discontinue the allowance and provide the veteran with notice of the determination that includes a description of options for appeal. The changes made by the bill would apply to:

- claims submitted after enactment; and
- claims submitted prior to enactment if the veteran is in receipt of the clothing allowance as of the date of enactment.
